TITLE	Selected Characteristics, Classified and Unclassified (Regular) Students: Community Colleges, Fall 1975.
INSTITUTION	Hawaii Univ., Honolulu. Community Coll. System.
REPORT NO	CC-IRP-83
PUB DATE	Oct 75
NOTE	27p.
EDRS PRICE	MF-$0.76 HC-$1.95 Plus Postage
DESCRIPTORS	Age; *College Majors; Community Colleges; Enrollment Rate; *Enrollment Trends; *Junior Colleges; *Junior College Students; Part Time Students; *Student Characteristics; Student Enrollment
IDENTIFIERS	*Hawaii

ABSTRACT

This document is comprised of charts and tables presenting enrollment data from fall 1971 through fall 1975 for the six community colleges in the Hawaii Community College System. The total fall 1975 enrollment figure of 30,476 compares to a 25,886 figure in fall 1974. Regular credit students comprise two-thirds of the registrants (20,617)--a 20 percent increase over fall 1974. Among the regular students, males continue to outnumber females; the margin widened to 57 percent in fall 1975. The mean age of regular students has risen from 24.3 to 25.0. The number of liberal arts majors increased from 8,059 to 9,810 (22 percent), and vocational majors from 6,825 to 8,764 (27 percent). Among vocational programs which greatly increased in number are: business, radiologic technology, human services, agriculture, and heavy equipment maintenance and repair. More students took fewer than 12 credits in fall 1975, and both full- and part-time students took lighter credit loads (11.0 average compared to 11.3 for fall 1974). The number of continuing students increased considerably on all campuses. Among the new students were 27 percent of the Hawaii 1975 high school graduates. The trends noted above, especially the increases in classified, continuing, and part-time students, have implications for planning. (NHM)

SELECTED CHARACTERISTICS CLASSIFIED & UNCLASSIFIED (REGULAR) STUDENTS COMMUNITY COLLEGES FALL 1975

A basic question about any enterprise is its "target group" or clientele. The major target group of community colleges must be its regular students, but others served cannot be ignored. The size of the special student group continues to grow from year to year, and the impact of this group needs to be recognized.

As in past reports on student characteristics, a registration count of all students in established credit programs as well as in other special programs is included. The primary focus, however, is on regular students. Selected data on personal characteristics are presented in the main section of this report; data on student enrollment by majors, in the appendices.

Information on Hawaii Community College students is included for the first time since fall 1971. For this reason, the figures for the Community College System differ from those cited in earlier reports.

Source of Data

Except for Table I, data for this report have been abstracted from the SERs as of October 15, 1975. (These computer reports are generated from two basic documents: (1) students' application forms or personal history forms; and (2) student registration forms.)

Highlights

1. Total registrations: 30,476 compared to 25,886 last fall (including Hawaii Community College). Regular credit students comprise two-thirds of the registrants.

2. Regular students: 20,617, +20 percent over last fall (17,172). (Tables II, III, IV)

   Sex: Males continue to outnumber females. The margin is slightly larger this fall (57 percent).

   Mean age: 25.0 compared to 24.3 last fall (range, 22.8 at Kapiolani to 26.9 at Kauai).

JC 750 572

Distribution by Program: Proportionately more are liberal arts and vocational majors. A decline in the number and proportion of unclassified students (from 2,105, 12 percent to 1,898, 9 percent) is noted. The number of liberal arts majors increased from 8,059 to 9,810 (22 percent) and vocational majors from 6,925 to 8,764 (27 percent). Among vocational programs which greatly increased (50 percent) in number of majors are: Business, Radiologic Technology, Human Services, Agriculture, and Heavy Equipment Maintenance and Repair.

Credit Hours Taken: Slightly more students are part-timers this fall, i.e. taking fewer than 12 credits. Both full- and part-time students are taking lighter credit loads (11.0 average compared to 11.3 for last fall).

Student Status: The number of "continuing" students increased considerably at all campuses and comprises a much larger proportion of the enrollees this fall at all except Kapiolani and Maui Community Colleges. (An increase in the proportion of transfer students is noted at these two campuses.) Transfer students comprise 12 percent of the students. The great bulk of them are from within the UH System.

High School Background: Slightly more than one-fourth (27 percent) of the Hawaii 1975 high school graduates entered the community colleges this fall.

3. Profile of Students, by Program (Figures 2):

   a. Liberal arts and vocational students are more similar than dissimilar: more males; age--mid twenties; more full-time students; average credit hours taken--11-12; more than half are "continuing" students.

   b. Unclassified students tend to differ from the liberal arts-vocational students: more females, older (mean age 30+), far more part-timers and as expected, lower "continuing" rates.

Summary

The enrollment of 20,617 regular students at the community colleges is an increase of over 3,000 students compared to last fall. More of the students this fall are classified, i.e., have educational goals, more are "continuing" students, and more are part-timers.

What factors account for the great enrollment increase at the community colleges this fall? Why are there over 2,000 more "continuing" students? What implications does this have for planning: curriculum? physical facilities? student services?

TABLE I

MISSING DATA	376	3	153	1	110	1	82	1	144	1

*See Appendix C for majors grouped under these categories.

**The figures differ from SER Computer Report 2508A, Fall 1973, since the data for this table include 29 machine shop majors who were placed in the "Missing Data" category due to an oversight in coding.

***The definition of special students has differed throughout the years. Data on special students have been separately summarized since Fall 1972.

APPENDIX C
MAJOR FIELDS INCLUDED IN THE GENERAL CATEGORIES
FALL 1975

General Category	Majors Included
Apparel Design and Construction	Apparel Design and Construction; Fashion Arts
Automotive Mechanics	Auto Mechanics Technology; Automotive Technology
Business, General	Business Operations; General Business; General Office
Clerical	Clerical Bookkeeping; Clerical General; Clerical Stenography; Typist; Front Office Clerk
Computer Science	Computer Science; Data Processing; Keypunch; Data Processing Operation
Diesel Mechanics	Diesel Mechanics; Heavy Equipment Maintenance and Repair
Drafting	Drafting Technology; Architectural Drafting Technology; Drafting and Engineering Aide
Electricity	Electricity; Industrial Electricity
Food Service	Food Services, Culinary Arts; Food Services, Dining Room; Food Services Management; Food Services, Short Order Cooking
Human Service	Human Services; Para-Professional in Human Services
Maintenance Technology	Maintenance Technology; Industrial Technology
Metalworking Technology	Metalworking Technology; Machine Shop; Machine Technology; Welding and Sheet Metal; Sheet Metal and Plastics; Welding
Nursing	Practical Nursing; Technical Nursing; Nursing
Sales/Management	Merchandising Mid-Management; Hotel Operation Management, Management, Sales, Sales & Management
